## KEYNOTES & SESSIONS

### Leadership on the Scoville Scale

Self-awareness isn't one practice. It's a heat scale. Seven leadership practices, from the bell pepper of blissful cluelessness to the Carolina Reaper of sabbatical-level reflection, each hotter and more transformational than the last. Audiences laugh, find themselves on the scale, and leave committed to one practice a level hotter than they're comfortable with.

### See Clearly: An Interactive Hour with the Enneagram

Most personality tools tell you what you do. The Enneagram tells you why. A highly interactive session where the audience participates, reacts, and starts recognizing themselves in real time. Led by an iEQ9 instructor in the top 2% globally.

*Formats: keynotes, half-day sessions, and multi-day leadership development engagements.*
